| III. Clinical Support Services a) Ambulance Services b) Blood Bank c) Physiotherapy d) Central Sterile Supply Department e) Dialysis f) Psychology | IV. Other Non-clinical Departments a) Biomedical Engineering b) General Administration c) Human Resources d) Information Technology e) Maintenance/ Facility Management f) Management of Biomedical waste g) Medical Records Department h) Pharmacy i) Central stores |
|---|---|

- **Central clinical laboratory (CCL):** CCL is well equipped with facilities for biochemical, hematological, cytological, microbiological investigations
- **Pre and para clinical laboratories:** The institution has well equipped pre and para clinical laboratories such Biochemistry, Microbiology, Biophysics, Anatomy & Physiology.
- **Central Research Laboratory (CRL):** The institution has well equipped Central Research Lab (CRL) for advanced research requirements.

Clinical teaching learning process:

The clinical teaching learning process is well organized to make sure that the training is not only effective, but also, student friendly. Effort is made to synchronize didactic teaching with clinical exposure. Also, It is ensured that the training is in graded manner (i.e simpler cases are allotted first and then gradually major cases are allotted for the clinical learning).
